## **Olympic Wreath Activity**

If an Olympic athlete won an event during the ancient Olympic Games, a wreath woven out of olive branches —symbolizing peace in ancient Greece—was placed upon his head. Use a strip of paper and collect some leaves. Arrange the leaves and attach them to the card to create your own winner's wreath!

Legend says that
the olive tree from
which they made
wreaths for the
Olympic champions,
was planted by
semi-god Heracles
at Olympia where
the Olympics were
taking place in
ancient Greece and
where they got their
name from.
