

Our time in Year 3 is coming to an end
It's been topsy turvy and around the bend!
Way back in September you crossed the road to us,
You've taken on every challenge without any fuss!
As we look back on the year filled with fun times
Let's remember some of them using a rhyme

Early on we had a pyjama party in school,
Staying up late was just super cool!
We've made axes, aqueducts and models all year
On completion we've always had a big cheer!
Stonehenge was amazing but oh so cold
Going in December we were really bold!

Family assemblies have always been fun
Although we're always relieved when they are done!
We've practised our art and learnt new skills
Our work has looked so real it's given us the chills

The Summer term turned out quite odd
But we've stuck together like a really good squad
From zooms and calls and working at home
It's like we've been in our own little biome!

Now we're at the end of your time in year three
There's just one thing to say to you from me
I'm really proud of everything you've are
You've have really shone like a bright north star!

Look forward to all of your adventures next year

We will cherish the memories from this and hold them dear!

You've acquired the skills and can now move on

We wish you the best for the future and beyond!
