

We are learning to use the 5 hand rules

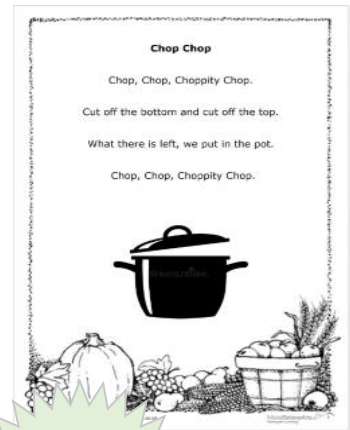

We are learning how to be 'ready, respectful and safe'.

We can 'choose it, use it and put it away'.

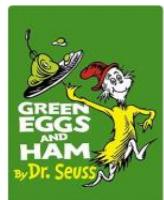

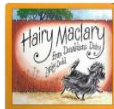

We are learning how to make others feel welcome, how to use gentle hands and to start recognising our feelings.

We are learning this poem by heart.

We are reading lots of stories together and getting to know them well.

**What we are learning in Nursery Autumn Term 1:**  
**The Story of Me**  
 Our focus this half term will be on developing children's positive sense of self and their understanding of their own place in the Ladysmith school community. We will spend time talking together and finding out about ourselves, our classmates and others. Through talk and stories, we will explore what it means to be a person, how our likes and dislikes make us unique and learn about how we can value and show love to others. We will start teaching children how to access the provision independently and the routines for the nursery day. Children will learn how to make positive behaviour choices, create positive interactions, and co-operate and resolve conflicts. We will find out about how to keep our bodies and minds healthy and safe, recognising the amazing things we can all do. We will use books, stories and videos to find out about people who live in different places and celebrate the diversity of our community and the wider world.

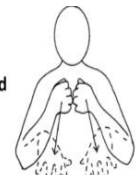

We are learning to subitize, talking about what we notice.
